

We are passionate about restoring health and well-being without the use of drugs or surgery. We love how chiropractic care works with the body as an integrated whole, and that we

can provide care that is safe and effective for people of all ages, from infants to older adults.

We are committed to contributing to the health of our community and offer affordable fees and care plans to meet a variety of needs.

We feel honored to serve as mentors to new chiropractors and to have inspired several patients to become chiropractors themselves.

We are available to speak to community groups on a variety of health related topics.

“For over twenty years I suffered with Irritable Bowel Syndrome. I’m happy to report that I am now symptom free. It is a miracle!”

Janet A.

We Can Help You:

- Effective and Gentle Care (no twisting of the neck or back)
- Thorough chiropractic examination
- State-of-the-art computerized scans
- Comprehensive, written report of our findings
- Periodic progressive exams
- Fees that you can afford
- Honor and respect your health goals

“By the time I found you I was truly desperate. Thank you for giving me back my life.”
Anne H.

“I came in for back pain, which resolved fairly quickly. An unexpected and delightful benefit is that my severe allergies are gone!!”
Chris N.

True Health Does Not Come From A Medicine Bottle.

At Emergence Chiropractic we focus on the source of your health; your body's natural ability to restore, strengthen, and maintain health and well-being.

The Best Doctor In The Universe Is Within Your Own Body!

Your nervous system communicates with and controls all parts of the body. When there is a blockage in the nervous system, disease begins. We remove the blockages so that the body and all its organs and systems move toward their natural state of health.

Perfect Health Is A Normal, Natural State Of Life.

“Coming to see Dr. Jeanne and Dr. John was the first time I had tried anything outside traditional medical care and it has totally changed my life for the better. I was suffering from a terrible sciatica flare up and now that is a distant memory. I had low energy, allergies, digestive problems and sharp pain in my left heel. All of these conditions have improved or totally gone away and I know it was from their care.”
Ava J.

You Don't Have To Live With:

- Endless reliance on medications
- Chronic aches and pains
- Conditions that never seem to change
- Poor “bounce-back” ability
- Low energy, sleep disturbances
- Just not feeling well

A Healthy Nervous System Results In:

- Improved mental/emotional state; feeling happier
- Better response to stress
- Greater enjoyment of life
- A better ability to heal and express health capacities
- More energy
- Better sleep
- Stronger Immune System; less flu and colds

“In September I started experiencing numbing pain on the left side of my face. I was diagnosed with Bell’s Palsy. After several weeks of care I was starting to feel better. By the time November came around, I realized that I was symptom free!”

Jacquelyn N.

“I suffered from post traumatic stress disorder following a severe car accident that occurred while it was raining. My PTSD was quite severe; panic attacks, hyperventilation and hysterical uncontrollable tears. Driving in the rain was not an option for me. A year later, after receiving care at Emergence Chiropractic I am astonished by the sense of calm and serenity I feel in lieu of panic and desperation. I have not a trace of PTSD, even driving through torrential rains! It is a calm both physical and mental, and the experience is truly liberatory.”

Natalie F-O.

“I love Dr. Jeanne and John’s positive teaching, encouragement and attitude. I recommend their healing touch to everyone!”

Debra M.
